

# Partner Blind Sort

1. Choose a partner and sit facing them.
2. One person in the pair holds the entire word sort in their hand.
3. Place the header on the table in between you.
4. The partner with the cards calls out the words, without the other seeing the word. The other person writes the word under the correct header. Continue for 10-12 words.
5. Discuss the answers with your partner as you go and keep track of how many you got correct.
6. Record your results in your spelling journal.
7. Thank your partner and swap roles so they get a turn to sort.
